

PRAYER FOR HEALTH PROFESSIONALS

We pray to you, Jesus in heartfelt prayer.

We pray during this demanding time of the COVID-19 Pandemic.

We place before you, Jesus,

the many health professionals and emergency personnel who have shown such courage and commitment to people with coronavirus here and around the world.

We accompany them in prayer, Jesus

as we acknowledge their service.

We thank them for their ministry of healing.

We pray for their safety.

We pray to you, Jesus

for doctors, specialists, surgeons and physicians, nurses and nursing assistants, medical researchers into COVID-19, medical technicians, therapists and therapy assistants, general practitioners, pharmacists and dentists, pathologists and interns, chaplains and counsellors.

We pray to you Jesus

for those tracing people with coronavirus, ambulance and emergency services, hospital cleaners and auxiliary hospital and clinic staff. And for the many other health workers who serve the community.

We pray to you, Jesus

for our governments, public service and industry that they work together to resource and protect our health professionals.

We pray to you, Jesus

as members of the human family.
Help us to work together as your family.

Amen.
